

SURFACE PREPARATION Grinders

FEATURES

- 7 inch diamond cup type wheel
- Flexible dust shroud with flip top front for edge grinding
- No skirt adjustment required
- 1-1/2 inch diameter dust port & hose
- Unitized, welded steel frame
- Detachable steel handle
- Anti-Vibe™ caster wheels
- Compact design for easy transport

SG7 SurfacePro™ Edge Grinder

Intended for smaller area job applications, the SG7 SurfacePro Edge Grinder is a highly productive solution to grinding or leveling concrete and asphalt surfaces found in both commercial and DIY projects. The walk-behind design keeps operators off their knees reducing stress and strain while increasing overall productivity and comfort over hand-held grinders. The detachable operator handle allows for easy transport in today's smaller vehicles. Heavy gauge steel frame provides the rigidity to remove materials with complete accuracy and control. Enhanced operator ergonomics and precise balance allow the SG7 to work circles around larger surface grinding equipment lacking the same agility and maneuverability. Includes flexible dust shroud with standard 1-1/2 inch (38 mm) diameter dust port connection and 7 inch (178 mm) diamond cup wheel.

SPECIFICATIONS

Operating Environment	Non-hazardous type locations
Power	2300W, 115VAC, 60HZ, 15 amperes
Speed	3400 RPM
Dimensions	23-1/4" (591 mm) L x 8-1/4" (210 mm) W x 43-1/2" (1105 mm) H (w/o blade)
Weight	27 lbs (12.3 kg), less blade
