

Easy Color™ Concrete Stain

Convert plain gray concrete into beautiful decorative concrete without the expensive, harsh chemical, and labor intensive process of acid staining. BonWay™ Easy Color Concrete Stain is UV stable and can be applied and sealed in one day. Semi-transparent finish allows for variations to enhance the overall look. Colors can be combined to expand color option.

Note: Colors shown approximate the final color, after a coat of sealer has been applied. Many factors outside of our control affect the final outcome of the project. Please consider mix ratio, hydration, cement, aggregate, cure time and other factors upon review of the final project. It is recommended to perform a test pour.
