Stampable Overlay Tint Colors

BonWay™ Stampable Overlay is a three part system of Primer/Base Overlay/Color tint (optional). Using a high comprehensive strength fiber reinforced topping makes resurfacing structurally sound concrete easy. Can be broom finished or used with stamping tools.

Apply 1 bag per each 50 lbs. of white base color material.

Color chips represented here show approximate results.

Variations should be expected due to jobsite conditions and finishing techniques. A test pour should always be performed.

With BonWay Decorative Concrete Products, the possibilities are endless!

BonWay™ products from Bon Tool Co. are manufactured to strict tolerances. All products are quality controlled for consislency. Please note that Bon Tool Co. or the BonWay™ division cannot be held responsible for finished appearance, product application or performance. Bon Tool Co.'s sole responsibility is, at its discretion, to replace or refund the purchase price for any materials found to be defective.
