BON'S TOTE PROVIDES EASIEST WAY TO CARRY BULL FLOAT AND HANDLES TO THE JOBSITE

(GIBSONIA, PA, USA) – Bon's new Bull Float Tote Bag holds one bull float, channel float or fresno with a bracket attached and four handles. The open ended tote is constructed from durable nylon and is equipped with plastic feet that run the full length of the tote to help keep the items upright and stabilized. Tools stay secured, protected and organized for storing and transporting.

The tote closes securely with a full length Velcro fold over flap and two buckle closures. It is equipped with four interior and five exterior pockets and a tape measure clip. A "window" on the front of the Tote allows the bracket to remain attached to the float when stored in the case.

The tote is available for purchase by itself or as part of Bon's new Bull Float Tote Kit which includes the following Bon items: (1) 82-519 Bull Float Tote Bag; (1) 12-953 48" Square End Bull Float; (1) 12-946 Rock n' Roll Bracket; (4) 12-169 6' Swaged Handles. Purchase the kit of Bon popular items or make it your own, filling the tote with tools of your choice.
